Dartmouth

Default Question Block

What's your name? [asking since you'll exclude yourself from the group member rating]

What portions of the code did you contribute to? Add a few bullet points

What portions of the slides or writeup did you contribute to? Add a few bullet points

[ ]

For the course in general, please rate which participation tier you think you fall into. Screenshot here

	A	B	C	
	Points	**Description**	**Shorthand**	
	32	Attended class; frequently participated in class; helped classmates on Slack	Top participation	
	24	Attended class; occasionally participated in class; didn't help classmates on Slack but clear leadership role in group work	Second highest	
	16	Attended class or office hours; rarely participated in class; didn't help classmates on Slack and no clear leadership role in group work	Third highest	
	0	Did not attend class (or a make-up for class) or help classmates on Slack	Lowest	

○ Top participation

○ Second highest

○ Third highest

○ Lowest

Optional: if you care to, write some notes on why and/or extenuating circumstances (e.g., fear of public speaking)

For each group member, (1) enter their name and (2) hover your cursor over the "group member X" and move them to the appropriate box.

Items

Group member 1

Group member 2 (if relevant)

Group member 3 (if relevant)

Yes this group member definitely made a good faith effort to contribute to the final project and it would be equitable for them to receive the same project grade

No this group member didn't contribute fairly/it doesn't seem

> equitable to give them the
> same project grade

If you put a student in No, feel free to add any comments (not required and will not be shared)

Dartmouth's Center for Social Impact (DCSI), which funded the SIP project, is hoping to feature some outputs from the project on their website or my website. Please choose one of the following:

○ I'm fine with our paper being posted

○ I'm not fine with our paper being posted but am fine with a figure or table from the paper being posted
